*"I was attracted to this training because of the supervised practicum (also that it is **free!**). At every step of the way, I am mentored and given constructive feedback by exceptional trainers, so that I can be confident that I am delivering high quality instruction. It feels great to work as a team to make a real difference in the lives of the children we serve, helping to restore their self-esteem and enjoyment of reading, and to fulfill their academic potential."*
